GETTING SOCIAL AT THE AGM

We will use social media at the Annual General Meeting to enrich our gathering and share our conversations with the wider community. We are committed to making the meeting a friendly place to learn. It's a chance to try something new and to find others who share your concerns. We hope you join the conversation. Here are some tips to get started – find more material at our Social Media Help Desk outside the dining room.

USING HASHTAGS

Hashtags are keywords that are marked by the # symbol, used to organize conversations into a single thread. For example #UCCAN marks conversations that might interest United Church members. Many social media platforms, including Twitter, Facebook and Instagram, allow users to search by hashtag for conversations of interest. Note that hashtags are generated by users, not by Twitter or Facebook. They are completely public and unregulated.

Here are some suggested hashtags for our meeting based on our theme:

#TOConfAGM (about the Toronto Conference AGM)
#honesty #truth #humility #love #wisdom
#courage #respect (about the seven sacred teachings)
#Learningtobefriends (based on Justice Sinclair's quote about reconciliation)
#TRCclimbing (based on Justice Sinclair's quote following the TRC Call to Action)

Here are some hashtags connected to our theme that are already in use :

#UCCan (of interest to United Church members)
#TRC62 (Kairos campaign on TRC Call to Action #62 on education)
#reconciliACTION (Kairos Winds of Change Campaign)
#TRC (Truth and Reconciliation Commission)
#2Reconcile (Truth and Reconciliation Commission about what reconciliation means)
